BACHELORS

Specialisation in Chemistry

Biology (Amiens)

Biology (Beauvais)

Chemistry

Physics

Physics (L3)

Specialisation in Computer science

Computer science
Mathematics
MIAGE

Specialisation in Mathematics

Computer science
Mathematics
Mechanics
Physics (Beauvais)

Specialisation in Physics

Electronics, electrical engineering control
Physics
Applied Physics

Specialisation in Health and biology

Human biology and health applied technologies (L2 - L3)
Prevention, health, physical rehabilitation
- Optional classes : security, physical rehabilitation
- Optional classes : massage and physiotherapy
Pharmaceutical sciences

Specialisation in Biology and geology

Biology
Chemistry (Amiens)
Chemistry (Beauvais)
Crop and food industry
Parcours sciences de la vie et de la terre

Specialisation in Engineering (St-Quentin)

Industrial engineering
Logistics

Specialisation STPSA (Sciences and techniques applied to physical and sports activities)

Adapted physical activity and health maintenance
Education and motor skills (Amiens)
Education and motor skills (Soissons)
Sports training

VOCATIONAL BACHELORS

Agronomy, agriculture and sustainable development
Agronomy, Sale representative for agricultural business
Plastics processing and composite materials - Transformation, multitechnological specialities of production (In co-autorisation with UTC)
Communication activities and techniques - teleservice jobs
Automation and industrial information technology - on-board car systems
Food industry, and food supply - Additives, technological auxiliaries and healthy nutrition
Networks and telecommunications - Webdeveloper
Information systems and databases - Communication and mobile computer technology for the companies and departements
Health - Physical inabilities compensation technologies
Networks and telecommunication - Networks and computer engineering
Building and construction - Construtive choice width environmental quality
Management of industrial production - Management of quality (Cuffies - Soissons)
Environnement : Water-related professions (St-Quentin)
Systèmes informatiques et logiciels - Ingénierie de la conception informatisée (St-Quentin)
Automation and industrial information technology - Automation, networks and remote maintenance (Cuffies - Soissons)
Robotics and industrial vision

MASTERS

Specialisation in Physical and engineering sciences

Engineering of composites agro-materials
Physical characterisation and modelling of complex materials

Skills for secondary school teaching (physics-chemistry)

Specialisation in Storing and energy conversion materials (master's degree on European vocation Erasmus Mundus)

Storing and energy conversion materials

Specialisation in Agro-business and environment

Ecosystems, agricultural-systems and sustainable development

Plant production and food-processing industry

Skills for secondary school teaching

Specialisation in organic and inorganic resources management

Quality control analyse - Water recycling and quality management

Biological and biotechnological transformations of organic resources

Chemical transformations of organic and inorganic resources

Physics - optional class : chemistry

Specialisation in Health

Health, security and work environment management

Physiotherapy, physical rehabilitation and gesture performance engineering

Molecular and therapeutical interactions

Physiopathology of integrated systems

Specialisation in Mathematics

Applied analyse and modelling

Algebra, number theory and applications

Skills for secondary school teaching (mathematics)

Specialisation in sciences and information technology

Electronics, electrical engineering, industrial automation and computer sciences

Logistics and embedded systems

- Management and logistics

- On-board equipment and transport system

Computer systems and network engineering

Computer science applied to business management

- Parcours Organisation des systèmes d'information de l'entreprise

- Multimédia and Internet information systems (distant learning)

- Multimedia and Internet information systems

- Multimedia and Internet information mobile systems

Information modelling and system analysis

Specialisation in Sciences, engineering and sports-related professions

Sport sciences

Sciences, engineering and sports-related professions
