The Oise University Institute of Technology

<Unknown label>

IUT Créteil

You would like to find a job which corresponds to your hopes and your abilities and this leads you to ask lots of questions about yourself and especially about the path you wish to take. In fact this will influence your future career, your social and your family life. To help you on the way, the Oise IUT offers you a few leads which will guide you towards your goal.

Adaptation > The world is constantly developing, and university courses at the Oise IUT will help you to adapt to evolving professions.

Skill > Companies want to recruit staff who are operational in a short space of time : the technological training that the Oise IUT offers gives you the chance to master modern techniques perfectly in order to create, produce, sell, transport...

Integration > The Oise IUT has excellent contact with the socio-economic environment (partnerships, work placements, supervised projects...) and provides you with concrete advantages in order to fully integrate into the business world.

Choice > Tuition at the IUT is aimed at technical and professional training and is widely recognised in the world of work. Since 1998 the second year of the courses in Marketing Techniques in Beauvais and Creil take place in the form of work placements.

International scope > The Oise IUT values the experience of foreign exchanges and has set up solid international relations which enable yearly exchanges (for students and teachers). It has an active partnership with Morocco and Tunisia and we intend to extend this to England, Poland...

Continuing studies > Offering 4 vocational degrees, the Oise IUT is a commendable vocational higher education complex offering you several choices of projects.

Our concern : That students fulfil their professional aspirations.
